

Moving Glass Wall Systems

Design that
moves

Wonder within *Reach.*

Open up to an entirely new way to look at luxury.

Introducing MILGARD® MOVING GLASS WALL SYSTEMS.

This innovative solution blurs the line between inside and out of the question. Aspirational yet realistic, this sliding wall seamlessly transitions between dreams and reality.

Typically moving glass walls are only a custom option in high-end homes. That is until Milgard reframed the conversation. Now you can expand your living space through 12 standard sizes in 3- and 4-panel configurations.

Plus enjoy the outstanding service, support and design you've come to expect from Milgard.

Moving expectations. Moving possibilities. Moving forward.

Design that moves.

Design

MILGARD® Moving Glass Wall Systems beautifully integrate with the other Milgard windows and patio doors in your home. Choose from several stock finishes including white, dark bronze anodized aluminum and Aluminum Clad Wood (Clear Vertical Grain Douglas Fir and Pine). The hardware is also available in the same finishes as your windows to provide a complete, unified look for your vision.

Ease

Our Moving Glass Wall System operates smoothly and effortlessly. Despite their larger-than-life size, these doors open and close with just the push of a finger. The secret is our tandem stainless steel ball bearing rollers that are strong enough to carry door panels nearly double the size. It's a simple luxury that's easy to use.

High Quality Stainless Steel Rollers

Aluminum 1.81" Roller

Wood 2.12" Roller

Confidence

Trust in Milgard's long tradition of excellence, which now translates to this newest offering. Enjoy the very best pairing of functionality and design. Milgard® Moving Glass Wall Systems come with a 2-year limited warranty. For complete warranty details and care & maintenance information, please visit milgard.com.

Make it Your Own

Sill Options

Water Barrier sill (standard)

Provides protection from water penetration and is recommended for all exterior applications. The 1.5" interior leg protects against water entering the inside of your home and the back leg of each sliding panel penetrates the track for additional protection against exterior elements. Available only in Dark Bronze Anodized finish.

Flush sill (optional upgrade)

Ideal for conditions in which ease of entry is more important than weather performance. The interior and exterior height of the sill is only .75" and can flush out with most interior flooring for a smooth transition outside. The track sill provides some protection against weather as the back leg of each sliding panel penetrates the track to help protect against exterior elements and help divert water.

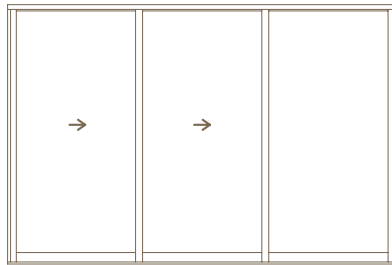

Retractable screen (optional upgrade)

Let in the air and light with high quality, pleated retractable screens.

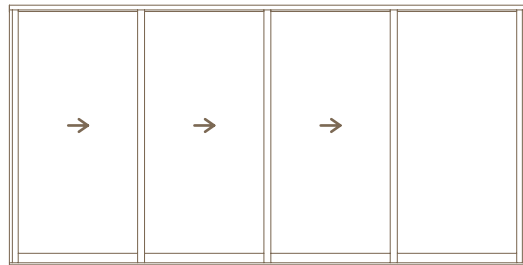

Available only with 3-panel aluminum doors with flush handle.

Panel Options:

3-Panel Doors

4-Panel Doors

Doors can be ordered with a left or right sliding direction.
